**LOMIKO TO OUTLINE 2012 DRILLING PLAN FOR QUATRE MILLES
AT TORONTO GRAPHITE CONFERENCE MAY 2, 2012**

Lomiko Metals Inc. (TSX-V: LMR; OTC: LMRMF; FSE: DH8B, Europe: ISIN: CA54163Q1028, WKN: A0Q9W7) (the "Company" or "Lomiko") is pleased to announce that Lomiko Metals will be presenting at the Toronto Graphite Express-Conference at the Sheraton Centre Hotel, Wednesday, May 2, 2012 and outlining its 2012 exploration plans.

This conference is designed to bring critical information about the graphite sector to investors and brokers. Simon Moores, Graphite Market Specialist with Industrial Minerals and Chris Berry of House Mountain Partners are keynote speakers.

Graphite is fast becoming a strategic mineral. From batteries to advanced nuclear reactors graphite is in demand and China, which supplies 70% of the current graphite market, is showing signs of holding back supply in the future.

Lomiko recently optioned the Quatre Milles Graphite Property 175 km from Montreal, Quebec in hopes of finding a large flake, crystalline graphite deposit which is easily developed. The property is accessible by paved road.
