### LOMIKO TARGETS LITHIUM-RICH SALARS IN CHILE

**Vancouver, BC - Lomiko Metals Inc. (TSX-V: LMR)** (“Lomiko” or the “Company”) announces it has purchased 50% of 9 pedimentos (claims) making up 1900 Ha of the Chilean Salar (Salt Lake) known as Salar de Aguas Calientes. The Board of Directors approved the purchase based on the following criteria:

- The Claims are in an excellent location adjacent to main sealed highway
- The Salar has significant surface brines known to contain Lithium
- The claims purchased surround a mining concession held by Sociedad Química y Minera de Chile S.A. (NYSE: SQM) at Salar de Aguas Calientes
- Lithium producers will be searching for new sources of Lithium to meet or increase production requirements to meet current and anticipated market demand
- The claims are within 70 km of the SQM production facility located at Salar de Atacama
- Research indicates the amount of high quality Lithium reserves required for batteries is limited by environmental factors
- The Current market for Lithium Ion batteries is anticipated to grow 25% per year
- The ‘Lithium Triangle’ located at the borders of Chile, Argentina and Bolivia contains 70% of the world’s economic Lithium deposits
- Forbes Magazine referred to the region as the “Saudi Arabia of Lithium”

Lomiko paid \$ 30,000 to acquire 50% of the claims and is currently negotiating with the other 50% owner to complete 100% ownership on this property.
