LOMIKO ENGAGES LITHIUM BRINE EXPERTS TRU CONSULTANTS FOR CHILE SALAR PROJECT

Vancouver, BC - Lomiko Metals Inc. (TSX-V: LMR, Pinksheets: LMRMF) (“Lomiko” or the “Company”) has engaged TRU Group Inc of Toronto, Ontario and Tuscon, Arizona to provide asset assessment and strategic acquisition advice. Lomiko Metals Inc. has recently completed a financing in order to start the exploration of the Salar de Aguas Calientes Lithium Project’s eight claims, Karolinas 1-8.

TRU has a strong capability in all aspects of potash-lithium technology and are world renowned experts in the production and refining of lithium intermediates such as brines, lithium carbonate , other chemicals, lithium metal/alloys and compounds. The TRU Lithium Team is expert in all aspects of the engineering, feasibility production and refining of: lithium resources such as evaporation ponds, brines, spodumene mining: lithium basic chemicals - lithium carbonate, lithium hydroxide, lithium chloride: lithium intermediates - butyl-lithium, lithium metal, lithium alloys and compounds. The team members have managed operations, evaluated, designed, engineered, specified equipment and built these facilities. The website is www.trugroup.com
In addition, the company will issue one million three hundred thousand options at twelve cents to directors and consultants exercisable for up to five years from the date of grant. These options are also subject to a four-month hold period to commence from the Spetember 3, 2009.
