

LOMIKO METALS INC.
Form 51-102
Management Discussion and analysis
Second Quarter ended January 31, 2010

4 3 9 - 7 2 3 1 1 2 0th Street, Delta BC, V 4 C 6 P 5

The following discussion and analysis of Lomiko Metals Inc. (the “*Issuer*” or the “*Company*”), is prepared as of May 28th, 2010, and should be read together with the annual consolidated financial statements and the corresponding notes thereto for the year ended July 31st, 2009. The financial statements have been prepared in accordance with Canadian generally accepted accounting principles.

The reader should also refer to the interim financial statements for the period ended April 30th, 2009 and the Management Discussion and Analysis for that year.

All amounts are stated in Canadian dollars unless otherwise indicated.

Forward Looking Statements

Statements in this report that are not historical facts and are forward-looking statements involving known and unknown risks and uncertainties, which could cause actual results to vary considerably from these statements. Readers are cautioned not to put undue reliance on forward-looking statements.

Some of the information contained in this discussion may constitute forward-looking statements. Forward-looking information can often be identified by forward-looking words such as “anticipate”, “believe”, “expect”, “goal”, “plan”, “intend”, “estimate” “may” and “will” or similar words suggesting future outcomes, or other expectations, objectives or statements about future events or performance. These risks and uncertainties could cause or contribute to actual results that are materially different than those expressed or implied.

Overview

Lomiko Metals Inc, (formerly Lomiko Resources Inc.) (“Lomiko” or “the Company”) was incorporated under the Company Act of the Province of British Columbia on July 3rd, 1987. These consolidated financial statements of the Company have been prepared on the basis of accounting principles applicable to a going concern, which assume the realization of assets and discharge of liabilities in the normal course of business.

The Company is a reporting issuer in British Columbia and Alberta and is listed on the TSX Ventures Exchange under the symbol “LMR”.

The Company is engaged in the acquisition and exploration of natural resource properties.

Dependence on Management

Lomiko Metals Inc. depends on the business and technical expertise of its management.

Paul Gill – President and Chief Executive Officer

Mr. Gill is the President of AJS Management Inc., a company providing management consulting to private and public companies. He has also been involved in the strategy, planning and implementation phases of re-structuring organizations. Until October 2006, Mr. Gill was heavily involved in the dynamic growth stage of Norsemont Mining where the company grew from a market capitalization of \$1 million to \$50 million. During his tenure with Norsemont Mining, Mr. Gill was the VP of Business Development and Director as well as the President & CEO, Chief Financial Officer and Corporate Secretary. Mr. Gill previously provided advice on health and safety issues and Workers' Compensation matters to individuals and businesses.

Jacqueline Michael – Chief Financial Officer

Ms. Michael has over 20 years of financial and administration experience. In 1988, Ms. Michael co-founded The Conac Group, a software development company for construction management, where she acted as President and CEO. In 1997, Ms. Michael was successful in taking the company public on the CDNX Exchange and helped raise over \$5 million in private placement financings for the company. Ms. Michael has acted as the President and Chief Executive Officer for public companies for over 10 years.

Garth Kirkham, P.Geol – Director

With 26 years of experience, Mr. Kirkham is the principal of Kirkham Geosystems that specializes in 3D computer modeling and resource/reserve estimations at the preliminary assessment, pre-feasibility and feasibility study stages of mining projects.

Mr. Kirkham obtained a Bachelor's degree in Science from the University of Alberta in 1983. He became a Professional Geoscientist with the Association of Professional Geologists, Geophysicists and Engineers of Alberta (APEGGA – P.Geoph.) in 1987, the Northwest Territories and Nunavut Association of Professional Engineers, Geologist and Geophysicists (NAPEGG – P.Geoph.) and the Association of Engineers and Geoscientists of BC (APEGBC – P.Geol.) in 2005. He is also a member of SEG (Society of Economic Geologists), GAC (Geological Association of Canada), CIM (Canadian Institute of Mining), AMEBC (Association of Mineral Exploration of BC) and PDAC (Prospectors and Developers Association of Canada).

Mr. Kirkham is a member of the board of directors for Romios Gold Corp., Kivalliq Energy Corp. and Duncastle Gold Corp., and a member of the advisory board for North American Tungsten Corp. In addition, Mr. Kirkham is audit committee chair and national council member for the GAC, is In-coming VP for the Geological Society, CIM and is Publication Chair and Past President for Mineral Deposits Division of the GAC. He was also awarded the Barlow Memorial Metal by the Canadian Institute of Mining and the Award of Merit by the Northwest Territories and Nunavut Association of Engineers Geologists and Geophysicists.

Mark Nesbitt - Director

Mr. Nesbitt is a natural resources attorney in Denver, Colorado specializing in domestic and international mining transactions, agreements, negotiations, title, due diligence, corporate and general business counsel. He received a B.S. degree in Geology from Washington State University and was a member of Sigma Gamma Epsilon. He received his J.D. from Gonzaga University following service in the U.S. Army and working as a field exploration geologist for Cominco and Kennecott. Before entering private practice in 1988, Mr. Nesbitt worked for Homestake Mining Company, Amoco Minerals Company, Cyprus Minerals Company and Minatome Corporation, a subsidiary of Total Petroleum.

Mr. Nesbitt was an Adjunct Professor at the University of Denver School of Law's Masters of Law Program from 2001 through 2007, is an active member of the Rocky Mountain Mineral Law Foundation, having served as a Trustee from 1987 to 1993, and from 2003 to the 2006, co-chairman of the Foundation's Mining Session at its International Mining, Oil & Gas conference in Buenos Aires in 2007 (held in conjunction with the International Bar Association), co-chairman of the Foundation's conference on Mining Law and Investment in Latin America held in April, 2005 in Lima, Peru (also in conjunction with the International Bar Association), and Chairman of the same institute in 2003, also in Lima, Chairman of the Landman's Section of the Foundation's 35th Annual Institute, speaker at the 37th, 39th and 43rd Rocky Mountain Mineral Law Annual Institutes, and Chairman of the Foundation's first Land and Permitting Special Institute in 1994. He has also served continuously over the years on the Foundation's Special Institutes Committee, Long Range Planning Committee, and numerous other committees. He has an "AV Preeminent" Martindale-Hubble peer review rating, is listed in The International Who's Who Legal of mining attorneys, is currently writing a new mining act for a developing African country, and is recognized by the World Bank as qualified to draft such laws.

Mr. Nesbitt is a member of the International, American, Colorado and Denver Bar Associations, Rocky Mountain Mineral Law Foundation, Mining & Metallurgical Society of America, International Mining Professionals Society and Colorado Mining Association. He is also a former Director of the Colorado Mining Association and past President of the Rocky Mountain Association of Mineral Landmen.

Julius Galik - Director

A business man and a financial advisor with PFSL, Mr. Galik has been Mutual Fund Licensed since 2001. He has been involved in start-up situations within the mining exploration industry in Western Canada since 2002, and during the past 8 years has been instrumental in the development and financing of various small capitalized companies, both private and public. Between 2006-2007 Mr. Galik served as director of Dorex Minerals Inc. (TSX-V: DOX), and in September 2009 was elected Dorex President and CEO. Mr. Galik brings to the board many years of financial experience, as well as strong leadership, mediation and negotiation skills.

Overall Performance

During the nine-months ended April 30th, 2010, the Company incurred a net loss of (\$564,714) and (\$0.01) net loss per share compared to a net loss of (\$363,890) and (\$0.01) net loss per share for the same period last year.

MINERAL PROPERTIES

The Company is engaged in the acquisition, exploration and development of the following mineral properties:

Vines Lake

On April, 10th, 2006, the Company purchased 100% interest in the Vines Lake property, consisting of three contiguous claim units totaling 1,196.4 in the Cassiar region of B.C. The property is located approximately 10 kilometers southeast of the town of Cassiar, B.C. The claims cover rocks of the Sylvester group which are known to contain productive zones of gold mineralization in the area. The claim group is located approximately 2 kilometers north-east of the former Erickson Gold Mine. Highway 37 intersects the property and there are excellent service facilities nearby. The area is on the Arctic slope with elevations ranging from 1,000 to 2,150 meters. There are no extraordinary environmental problems known as of this date.

The Company paid the vendor, who is an Insider, \$10,000 in cash and issued 480,000 common shares (post 1:4 share split basis, Oct. 7, 2008) at a deemed value of \$60,000 for a total acquisition cost of \$70,000 and a 2% NSR.

The nearby Table Mountain Gold Property operated by Hawthorne Gold (HGC) comprises a number of past-producing, high-grade underground gold mines and placer workings in the Cassiar District of British Columbia. Total gold production to date from the Cassiar District is about 423,500 oz (13,172 kg) of gold.

The Company retained Canadian Mining Geophysics (“CMG”) to complete an airborne survey of its Vines Lake Property located near Cassiar, B.C. which was mobilized on June 30th, 2008. The aerial survey was conducted with a magnetic gradiometer with VLF-EM on 100 metre line spacing, fly 302 line km and will assist in defining exploration targets. The CMG airborne survey contract was completed in October 2008 and cost \$50,000.

The Company announced on May 4, 2009, that it has completed a NI 43-101 technical report compiled by Kirkham Geosystems Ltd.

Karolina Chile Lithium Claims (Salar de Aguas Calientes)

The Salar de Aguas Calientes is located in the northern part of the “Altiplano” in the second region of Chile, close to the border of Argentinian and Bolivia. The international road to Salta using the “Paso Jama” passes next to it. Three other salars are located nearby, Salar de Tara, Salar de Pujsa

LOMIKO METALS INC.
Form 51-102
Management Discussion and analysis
Second Quarter ended January 31, 2010

and Salar de Quisquiro. The salar is a beach type Salar with superficial lagoons of variable size and the brine can be found on decimetres depth of the salt crust.

The Company entered into an acquisition agreement to purchase 100% ownership in 8 of 9 claims that make up the Chilean Salar (“Karolina Claims”) encompassing 1900 Ha. The Company approved the purchase of the said property based on certain criteria:

- The Karolina Claims are in an excellent location adjacent to the main sealed highway
- The Salar has significant surface brines known to contain Lithium
- The claims purchased surround a mining concession held by Sociedad Quimica y Minera de Chile S.A. (NYSE:SQM) at Salar de Aguas Calientes
- The demand for Lithium is anticipated to grow 25% per year to meet or increase global production requirements

The purchase of the Karolina Claims was done through two separate transactions:

The Company completed the purchase of 50 % ownership in the Karolina Claims with Jeff Adams for which it paid Mr. Adams a total of CAD \$30,000 in cash, on June 15th, 2009.

The Company completed the purchase of the remaining 50% ownership in the Karolina Claims with Brian Gusko. Upon Exchange approval, Mr. Gusko received a total of \$50,000 in cash (from which \$10,000 was credited towards legal fees) and was issued 1 million of the Company’s common shares at a deemed value of \$0.065 per share on November 11th, 2009.

The total acquisition cost for the Karolina Lithium Claims in Chile was CAD \$145,000 in cash and share payments.

The Company has recently commenced preliminary exploration work on this property in May 2010

Alkali Lake (KAR Claims) Esmerelda county, Nevada USA

Montezuma Valley (also known as Alkali Flat) is a formation of a structural basin, downfaulted and rotated crustal block caused by tensional spreading forces common to the basin and range from Nevada to the nearby states. It is these volcanic rocks ejected from a nearby eruption during the Tertiary that are considered to be a prospective source of economic grades of lithium and other materials found in the subsurface brines in Clayton Valley. Montezuma Valley and the KAR claims are located immediately east of Clayton Valley.

On November 9, 2009, the Company announced that its US subsidiary, Lomiko Metals USA LLC, had located and staked 552 lode claims comprising 4,615.4 Hectares or 11,404.9 acres, in Esmerelda County, Nevada which covers a large portion of Alkali flat in Montezuma Valley. The Company paid US \$180,248.00 (CAD \$187,322.55) to Esmerelda County NV for the rights to explore this property.

MINERAL PROPERTIES ACQUISITIONS AND DEFERRED EXPENDITURES

The Company defers the cost of acquiring, maintaining its interest, exploring and developing mineral properties until such time as the properties are placed into production, abandoned, sold or considered to be impaired in value. As at April 30, 2010, a total of \$471,459.42 was recorded on acquisition and exploration of mineral its properties. All of these costs were deferred.

A summary of capitalized acquisition and exploration expenditures on the Company's properties is as follows:

Vines Lake – Cassiar Mining District of BC

Date	Description	Cash	Shares	Price	Amount
05/15/2006	Acquisition cost	\$ 10,000.00			\$ 10,000.00

Third Financial Quarter 2010 activities

The following events took place in the Company during the third financial quarter of 2010.

On February 16th, 2010, the Company announced that Lomiko Metals Inc. and its wholly-owned subsidiary, Lomiko Metals USA LLC (“Lomiko USA”) entered into a Memorandum of Agreement (“MoA”) with Japan Oil, Gas and Metals National Corporation (“JOGMEC”) on February 8th, 2010.

According to the terms of the MoA, JOGMEC is able to acquire 51% of Lomiko USA’s Alkali Lake Project (“the Property”) in Esmeralda after completing US \$ 2.5 million in work no later than March 31, 2013 (“the Earn-In-Date”). Both parties must contribute based on a 51/49 ratio to retain their interest after the Earn-in-Date. JOGMEC has the Right of First Refusal to acquire the remaining portion of the property not owned after the Earn-in-Date and may accelerate the Earn-in-Date by completing required expenditures early. JOGMEC also has the right to transfer its interests in the Alkali Lake Property, in whole or in part, to one or more Japanese companies or a consortium of Japanese companies. JOGMEC shall have exclusive right to direct the marketing of minerals or mineral materials removed from the Property on behalf of the Joint Venture for a 10 year period from the date of first commercial production.

The above agreement is subject to a 30 day due diligence period that may be extended to not more than 90 days. Once above due diligence is satisfied by JOGMEC, Lomiko and JOGMEC will form a Joint Venture Management Committee to direct exploration and Lomiko will act as Operator. JOGMEC shall prepare an initial draft of the definitive agreement between the parties to the MoA. Any Exploration expenditures by Lomiko from January 17, 2010 to present will be credited to the Joint Venture and compensated accordingly.

Lomiko USA, located 552 lode claims comprising 4,615.4 Ha or 11,404.9 acres in Esmeralda County, Nevada. The staking covers a large portion of Alkali Flat Salt Lake in Montezuma Valley which is prospective for economic grades of lithium and other materials.

JOGMEC was established on February 29, 2004. JOGMEC integrates the functions of the former Japan National Oil Corporation, which was in charge of securing a stable supply of oil and natural gas, and the former Metal Mining Agency of Japan, which was in charge of ensuring a stable supply of nonferrous metal and mineral resources and implementing mine pollution control measures. Further details are available at: <http://www.jogmec.go.jp/english>

On February 15th, 2010, the Company signed a 6-month contract (the “Contract”) with Marketsmart Communications Inc. (‘Marketsmart’) to provide investor relations services to the Company. According to the terms of the Contract, the Company will pay Marketsmart \$5,000 a month plus tax and will issue 200,000 of its stock options to Marketsmart at \$0.12 per share. The Stock Options are subject to Exchange approval and shall be vested in accordance with the Company’s Stock Option Plan.

On February 22nd, 2010, the Company announced that it has joined www.StockProfile.com, a customized web-based platform showcasing emerging growth stocks in order to increase its profile in the US and introduce the company to new investors. Currently, Lomiko Metals Inc.

LOMIKO METALS INC.
Form 51-102
Management Discussion and analysis
Second Quarter ended January 31, 2010

may be traded in the US under the symbol LMRMF. The new listing status is required in the United States for better exposure to US investors.

Subsequent Events

Further to the news release of February 16, 2010, the Company announced on May 7, 2010, that its wholly-owned subsidiary, Lomiko Metals USA LLC ("Lomiko"), had been notified that the Alkali Lake, Memorandum of Agreement with JOGMEC would not be proceeding as the terms and conditions had not been met. Upon termination, the 552 lode claims comprising of 4,615.4 Ha or 11,404.9 acres in Esmeralda County, Nevada reverts to 100% ownership by Lomiko. The staking covers a large portion of Alkali Flat Salt Lake in Montezuma Valley which is prospective for economic grades of lithium and other materials.

On May 7th, the Company signed a Sale/Purchase Agreement for acquisition of 100% of the EVA and PLAYA claims which comprise of 222.04 hectares and 222.09 respectively of semi-evaporitic lakes known as Rose Lake and Cunningham Lake located near 70 mile House, B.C. The lakes are located in the Green Timber Plateau area, a semi-arid plateau averaging 1130 meters elevation and are part of the Cariboo Plateau. The area is underlain by alkaline plateau basalt flows of the Miocene to Pleistocene Chilcotin Group, mantled by a thin cover of glacial till and glaciofluvial sediments.

The Company has given notice of its Annual General Meeting scheduled for July 30th, 2010 at 10:30 am to be held at Computershare Investor Services Inc., 510 Burrard Street, 3rd Floor, Vancouver BC, V6C 3B9.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, The Conac Group Inc., incorporated in British Columbia, Conac Software (USA) Inc., incorporated in Washington, U.S.A. and Lomiko Metals USA LLC incorporated in Colorado, U.S.A.

Use of Estimates

The preparation of financial statements in accordance with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management's best estimate as additional information becomes available in the future.

Resource Properties

Resource property acquisition costs are capitalized until the viability of the mineral interest is determined. Exploration costs are capitalized and tested annually for impairment.

Stock Based Compensation

Stock options granted to non-employees are accounted for using the fair value-based method of accounting. In respect of stock options granted to employees and directors, the Company has elected to adopt the intrinsic value based method of accounting, which recognizes compensation expense only when the market price exceeds the exercise price at the date of grant, but which requires pro-forma disclosure of net loss as if these grants were accounted for using the fair value

LOMIKO METALS INC.
Form 51-102
Management Discussion and analysis
Second Quarter ended January 31, 2010

method. Consideration paid on the exercise of stock options is credited to share capital. Stock based compensation is credited to contributed surplus.

Earnings or Loss Per Share

Basic and fully diluted earnings or loss per share is calculated on the weighted average number of shares outstanding during the year.

The treasury stock method is used to determine the dilutive effect of stock options and warrants. Under the treasury stock method, only instruments with exercise amounts less than market prices impact the diluted calculations. In computing diluted loss per share, no shares were added to the weighted average number of common shares outstanding during the period ended October 31, 2009 and year ended July 31, 2009 for dilutive effect of stock options and warrants as they were all anti-dilutive. No adjustments were required to report loss from operations in computing diluted per share amounts.

Translation of Foreign Currencies

Foreign currency denominated monetary assets and liabilities are translated at year-end exchange rates. Income and expense transactions denominated in foreign currencies are translated at exchange rates prevailing at the transaction dates. Gains or losses arising on foreign currency translation are recorded in the statement of loss and deficit.

Income Taxes

Future income tax assets and liabilities are determined based upon differences between financial reporting and tax bases of assets and liabilities, measured using substantively enacted tax rates and laws expected to apply in the years in which those temporary differences are expected to be recovered or settled. The effect of a change in tax rates is recognized in operations in the period that includes the substantive enactment date. A valuation allowance is recognized to the extent that, it is more likely than not, that future income tax assets will not be realized.

Risks and Uncertainties

The Company is subject to a number of risk factors due to the nature of the mining business in which it is engaged. The risks and uncertainties not presently known to the Company may impact the Company's financial results in the future. The current economic and market conditions represent circumstances that may affect the carrying amount of the Company's assets.

Financial Instruments and Other Instruments

The Company's financial instruments consist of cash, receivables, accounts payable, accrued liabilities and asset retirement obligations. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest or credit risks arising from these financial instruments. The fair value of the financial instruments approximates their carrying value, unless otherwise noted. The Company is exposed to financial risk arising from fluctuations in foreign exchange rates and the degree of volatility of those rates. The Company does not use derivative instruments to reduce its exposure to foreign currency risk. The Company does not employ a hedging or foreign exchange protection strategy. The Company's income and expenses are denominated in Canadian dollars.

The Company paid a cash commission of CAD \$80,000 to Byron Capital Markets who acted as Agent for the private placement as well as issued Agent

options to subscribe for 833,333 Units of the offering at a price of \$0.12 per Unit and 416,667 warrants priced at \$0.20 per share purchase, all of which are exercisable until March 1, 2011. The net proceeds of \$869,316.93 for the financing are being used for working capital purposes.

There were 1,135,000 warrants and 120,000 options exercised in August 2009 which brought in a total of \$153,875 to the Company.

At the current time, the Company has sufficient funds to pay for 6 months of operating expenses. The Company will need to raise further capital in the near future to fund its operations and exploration programs.

Off Balance Sheet Arrangements

The Company is not a party to any off balance sheet arrangements or transactions.

Related Party Transactions

During the nine-month period ended April 30th, 2010, the Company entered into the following transactions with related parties:

The Company paid \$45,000 in management fees to a company controlled by Paul Gill, President and CEO.

The Company paid \$45,000 in management fees to a company controlled by Jacqueline Michael, CFO.

The Company paid \$13,652.67 in consulting fees to a company controlled by Garth Kirkham, Director.

The Company paid a bonus of \$10,000 to a Director.

All of the above fees were in the normal course of operations and measured at the exchange amount which is the amount of consideration established and agreed to by the related parties.

Outlook

The company has begun to focus its attention specifically on 100% acquisitions of lithium and rare earth metals properties in Chile and Nevada, USA. With the growing demand for high-tech electronics such as cell phones and laptops world-wide, especially the emergence of a consumer market in India and China, the high adaptation rate among the younger population in these countries and the increasing penetration of these products and the emerging hybrid and electric cars, the demand for lithium and other rare earth metals will also continue to expand.

LOMIKO METALS INC.
Form 51-102
Management Discussion and analysis
Second Quarter ended January 31, 2010

It is time for the Company to bring itself onto the world stage in the Lithium business and as such, will focus on acquiring prospective lithium properties for exploration and development in order to launch the company's planned two-year exponential grow phase. If the assets acquired during this time are proven to be of merit, the company will continue with development of the assets or otherwise seek to maximize shareholder return on investment.

The recent acquisition of properties in Chile and Nevada having good lithium prospects confirms the Company's commitment to diversify its market and build shareholder value. The Company has commenced preliminary exploration work on its property in Chile. The Company is also seeking business partners for the purpose of marketing lithium internationally.

In addition, Lomiko explores for gold, as it is the opinion of management that gold and companies with gold discoveries, will be in significant demand as a hedge against currency devaluation in the face of the significant potential for lower interest rates in the face of global credit contraction.

The Company is continually involved in the ongoing process of identification and evaluation of new properties that can achieve the corporate objectives for near to long term growth. The Company plans to make additional acquisitions, if suitable properties become available to the Company, together with further financings in the future.

On behalf of the Board,

"Paul Gill"

Paul Gill, President & CEO
