NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

Nine months ended April 30, 2020

Unaudited – Expressed in Canadian dollars

1. NATURE OF OPERATIONS AND GOING CONCERN

Nature of operations

Lomiko Metals Inc., (along with its subsidiaries collectively referred to as the “Company”), is engaged in the acquisition, exploration and development of resource properties and the investment in power supply products companies. The Company is considered to be in the exploration and evaluation stage. The Company was incorporated on July 3, 1987, under the British Columbia Company Act. The Company is listed on the TSX-Venture Exchange (“TSX-V”) having the symbol LMR.V as a Tier 2 mining issuer and on the Over the Counter Exchange in the United States having the symbol LMRMF.

The Company’s registered office is unit 439-7184 120th Street, Surrey, British Columbia, Canada.

Going Concern

These condensed consolidated interim financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the discharge of liabilities in the normal course of business for the foreseeable future. The Company has incurred cumulative losses of \$26,466,514 and has reported a loss of \$899,338 for the period ended April 30, 2020. The ability of the Company to continue as a going concern is dependent upon successfully obtaining additional financing, entering into a joint venture, a merger or other business combination transaction involving a third party, sale of all or a portion of the Company’s assets, the outright sale of the Company, the successful development of the Company’s mineral property interests, or a combination thereof. There can be no assurance that funding from this will be sufficient in the future to continue and develop its mineral properties. These factors indicate the existence of a material uncertainty that may cast significant doubt upon the Company’s ability to continue as a going concern. These condensed consolidated interim financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

2. BASIS OF PREPARATION AND STATEMENT OF COMPLIANCE

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting.

Certain information, in particular the accompanying notes, normally included in the audited annual financial statements prepared in accordance with IFRS has been omitted or condensed. Accordingly, these unaudited condensed consolidated interim financial statements do not include all the information required for full annual financial statements, and, therefore, should be read in conjunction with the audited annual financial statements of the Company and the notes thereto for the year ended July 31, 2019.

These condensed consolidated interim financial statements were approved and authorized for issue by the Board of Directors on June 26, 2020.

Basis of measurement:

These condensed consolidated interim financial statements have been prepared on the historical cost basis except for where IFRS requires recognition at fair value.

2. BASIS OF PREPARATION AND STATEMENT OF COMPLIANCE - continued

Functional and presentation currency:

These condensed consolidated interim financial statements are presented in Canadian dollars, which is the Company's functional currency.

Use of estimates and judgements:

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Critical judgments in applying the accounting policies of the Company in the preparation of these consolidated condensed interim financial statements and key assumptions related to these estimation uncertainties are the same as the ones listed and described in Note 3(m) of the annual audited financial statements of the Company as at July 31, 2019.

3. SIGNIFICANT ACCOUNTING POLICIES

These condensed consolidated interim financial statements have been prepared following the same accounting policies used in Note 3 of the annual audited financial statements for the year ended July 31, 2019.

Changes in Accounting Policies—New and Amended Standards and Interpretations

IASB or the IFRIC have issued certain pronouncements that are mandatory for accounting periods beginning on or after January 1, 2019. None of these are expected to be relevant to the Company's financial statements, except for the following:

IFRS 16, Leases, provides a single lessee accounting model for recognition, measurement, presentation and disclosure, requiring lessees to recognize assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value. Lessors continue to classify leases as operating or finance, substantially unchanged from IAS 17, the predecessor to IFRS 16. The standard is effective for annual periods beginning on or after January 1, 2019. The Company has no leases and as such, this standard would have no impact on the Company's financial statements. There are no other IFRSs or IFRIC Interpretations that are not yet effective that would be expected to have a material impact on the Company.

4. CASH AND CASH EQUIVALENTS

Cash and cash equivalents on the statement of financial position comprise cash at bank, held in trust, on hand, and short term deposits with an original maturity of three months or less, which are readily convertible into a known amount of cash.
