Changes in Accounting Policies – New and Amended Standards and Interpretations

LOMIKO METALS INC.
Form 51-102
Management Discussion and Analysis
Interim Third Quarter ended April 30, 2020

IASB or the IFRIC have issued certain pronouncements that are mandatory for accounting periods beginning on or after January 1, 2019. None of these are expected to be relevant to the Company's financial statements, except for the following:

IFRS 16, Leases, provides a single lessee accounting model for recognition, measurement, presentation and disclosure, requiring lessees to recognize assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value. Lessors continue to classify leases as operating or finance, substantially unchanged from IAS 17, the predecessor to IFRS 16. The standard is effective for annual periods beginning on or after January 1, 2019. The Company has no leases and as such, this standard would have no impact on the Company's financial statements. There are no other IFRSs or IFRIC Interpretations that are not yet effective that would be expected to have a material impact on the Company.
